

WELD-ON PRESSURE RETENTION HOT TAP TEES

FEATURES

- For hot tapping connections, size-on-size or reducing branch for steel pipe.
- 4" x 4" through 48" x 48" standard. Other sizes and pressure ratings available.
- Picture shows fitting with weld-neck flange attached. Butt weld outlets and other outlet joint preparations available.
- Manufactured to provide proper branch connection strength within the stated working parameters.
- Designed for proper hot tap alignment; ensuring a square joint to improve cutter life and field fit-up.
- Compatible with most standard hot tapping equipment.
- Standard design to ANSI/ASME B31.4/8 with a .72 design factor. Other codes met by request.
- Special flange facings available.
- Backing strips available on request.

WELD ON PRESSURE RETENTION HOT TAP TEES CLASS 150 – STANDARD DIMENSIONS

- Part numbers shown are for split tees with flanges conforming to ASME B16.5 through 24" and MSS-SP44 on larger sizes.
- Special flange facings available.
- For butt-weld outlets and other than size-on-size fittings, please consult your Furmanite – IPSCO representative.
